SWIMMING POOL REGISTER OPEN FROM 29 APRIL 2013 – www.swimmingpoolregister.nsw.gov.au

From 29 April 2013, pool owners are required to register their backyard swimming pools in an online register to be provided by the NSW State Government. Visit the register website at **www.swimmingpoolregister.nsw.gov.au** and follow the easy registration steps.

Swimming pool registration is free. If you can't access the online register after 29 April 2013, your local council will be able to register on your behalf (a fee of up to $10.00 may apply).

The Register will promote pool safety and pool compliance in response to the challenge of reducing the number of deaths and injuries to children in backyard swimming pools in NSW. The Register will provide pool owners with pool safety checklists to help them to self-assess their pool's safety. Pool owners will be asked to indicate that, to the best of their knowledge, their swimming pool complies with the Standard applicable to their pool. There may be a penalty applied to owners who fail to register a swimming pool by 29th October 2013 (penalty notice amount of $220).

Q. WHAT IS SUPERVISION?

A. Supervision is constant visual contact with your child. You should be within arms' reach and be in a position to respond quickly. It is not an occasional glance while you nap, read or undertake household chores, and it is not looking outside at your kids playing while you are inside.

Q. WHAT IS ACTIVE SUPERVISION?

A. Active supervision means focusing all of your attention on your children all of the time, when they are in, on or around the water. You must be within arms' reach, interacting with your child and be ready to enter the water in case of an emergency.

Q. HOW CAN MULTI-TASKING AFFECT SUPERVISION?

A. Parents are busy and often try to do many things at once to save time. When you multi-task you can become distracted and do not give your full attention to maintaining the safety of your children. Distractions include: doorbell, phone, meal times, toilet breaks etc.

Q. CAN OLDER CHILDREN WATCH YOUNGER CHILDREN?

A. No. Parents leaving young children in the care of older siblings has been a factor in a number of toddler drowning deaths. Older children are not equipped with the skills to perceive and respond to an emergency situation, nor should they be given this responsibility.

Q. WHAT IS THE BEST WAY TO SUPERVISE CHILDREN AT PARTIES?

A. If there are a small number of children, make an adult responsible for their care. A supervisor should wear a Keep Watch 'Designated Child Supervisor' Hat and if that supervisor leaves they should hand the hat (responsibility) over to another adult to take over. If there are a large number of children, leave an adult stationed at each different place where the children will play to monitor that area.

SUPERVISION CHECKLIST:

- ○ Everything ready for bathing your child or going swimming e.g. towels, dry clothes, cordless phone or answering machine on etc
- ○ Child actively supervised within arms' reach
- ○ All of your attention focused on your child all of the time when they are in, on, or around water
- ○ Child not left alone or in the care of an older child when around water or in the bath
- ○ Prepared to get wet in case of an emergency

KEEP WATCH
PREVENT YOUR CHILD FROM DROWNING

REAL LIFE STORY - A FAMILY'S TRAGEDY

A 2 year old girl drowned after falling into a backyard swimming pool. The little girl drowned, after her grandmother, who was watching her, went to answer the front door.

"I'm absolutely distraught" said the girl's grandmother. "I was inside the house for only a minute, but it was enough time for her to climb on a table that had been left against the pool fence. She opened the gate, got inside the fence and fell into the pool. I will never be able to forgive myself for letting this happen".
