# BERRIGAN SHIRE COUNCIL AND TOCUMWAL FORESHORE COMMITTEE PROJECT SCOPE

6 February 2023

# **OVERVIEW**

# 1. Project Background and Description

At the 19 October 2022 Ordinary Council meeting, Council moved to "temporarily revoke the delegation to the Tocumwal Foreshore Committee of Management for care, control and management of the Town Beach Camping Area portion of the Tocumwal Foreshore Reserve".

The temporary revocation of delegation was the result of an Internal Audit undertaken by Centium that outlined significant concerns regarding governance and financial protocols Council had not ensured were occurring under the delegated authority.

From July 2022 through to the week prior to the Christmas break, the Town Beach area was flooded and access to Town Beach was not available.

Town Beach was able to reopen to the public on 26 January 2023 in time for the Australia Day weekend. With the Tocumwal Foreshore Committee of Management's (the Foreshore Committee) delegation still revoked, Council decided to not charge for camping for the Australia Day long weekend. In reality, camping cannot be charged until the Foreshore Committee are able to have their delegation restored to them.

# 2. Project Scope

This Project Scope sets out the steps that are required to be completed to ensure the Foreshore Committee are supported by the Berrigan Shire Council (the Council) to meet all governance and audit requirements of section 355 Committees. The project may be undertaken regardless of when the delegation is returned to the Foreshore Committee but demonstrates commitment of both the Foreshore Committee and the Council to complete the project and manage Town Beach in a sustainable, transparent and auditable way into the future.

# 3. High-Level Requirements

The project includes the following requirements

The Foreshore Committee will:

- assist with the transition to the banking arrangements required of Section 355 committees by the Auditor-General
- provide the Council with a motion outlining their Fees for the hire of Foreshore Market Sites and Town Beach Camping sites no later than mid March each year
- assist Council in its review of the Volunteer Guide to Operations Section 355 Committees by providing relevant feedback as required
- implement an online booking system for both the Foreshore Markets and the Town Beach Camping area that meet local government audit requirements
- assist as required with the recruitment of a Town Beach Caretaker or similar position as it may become after review of the requirements as outlined below

1

Item 8.7 - Appendix 1 Page **15** of **51** 

 work with the Council to agree on the roles and responsibilities of the Council and the Foreshore Committee with regard to the Tocumwal Foreshore area.

### The Council will:

- install the Grey Water system at the Town Beach Campsite as previously approved
- introduce a comprehensive Volunteer Induction process for all new Section 355 Committee members, and a shorter version for all returning committee members where legislation etc has changed since the last induction, or where issues have arisen with misunderstandings of roles and responsibilities etc
- work with the Foreshore Committee to review the Town Beach Caretaker model to allow for Workplace Health and Safety and Industrial Relations considerations of the position(s)
- provide clear guidance as to Councils role and responsibilities regarding the Tocumwal Foreshore area, including Town Beach and the roles and responsibilities of the Foreshore Committee

# 4. Deliverables

### Market Update Summary

Risk markets were aided in January as recent data indicated there were signs the global economy may be weathering inflation better than previously anticipated. Several global central banks also hinted they may pause their aggressive rate hike cycles in the near future.

Domestically, the labour market remains tight, but timely indicators of labour demand are off their peaks as labour supply has normalised and frictions associated with rapid employment growth out of pandemic impacts moderate. Although labour costs pressures are evident in the latest CPI figures for Q4 2022, there are reasons to be optimistic that some stabilisation in wages growth can occur without a sharply higher unemployment rate, including the normalisation in labour supply. For now, the RBA continues to signal that it expects to increase interest rates further over the period ahead, with up to 2-3 hikes already largely priced into the market by Q2-Q3 2023, taking the cash rate up to 3¾%. Thereafter, noting the lags in monetary policy, a pause around the end of Q2-Q3 is likely whilst the RBA monitors the economic data.

Despite more rate rises on the horizon, given an upward sloping deposit curve, maintaining a slightly longer average duration position on deposits will continue to outperform shorter durations. The deposit market has largely already factored in the current rate hike cycle, reflected by the flattening of the curve demonstrated by the longer-term tenors (+2yrs) over the past few months (the market is also factoring in a recession over coming years). Interestingly, amongst the major banks, 2-5 year deposit rates are now being offered slightly below 12 month rates:

Source: Imperium Markets

Monthly Investment Report: January 2023

'New' investments above 4%-4½% p.a. is now possible if Council can place the majority of its surplus funds for terms of 12 months to 2 years. With recessionary fears being priced in coming years, investors may take an insurance policy by investing across 3-5 year fixed deposits and locking in rates above 4½% p.a. (small allocation only), ahead of any potential rate cuts should inflation be under control.

# Council's Portfolio & Compliance

### **Fund Allocation**

As at the end of January 2023, the portfolio was mainly directed to General Funds:

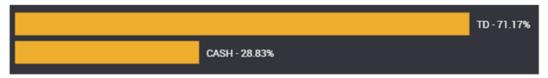

| Investments per allocation |               |              |                  |  |  |  |
|----------------------------|---------------|--------------|------------------|--|--|--|
| Code                       | Invested      | Invested (%) | Number of trades |  |  |  |
| GENERAL                    | 29,420,189.35 | 74.63        |                  |  |  |  |
| WATER                      | 8,000,000.00  | 20.29        | 4                |  |  |  |
| SEWER                      | 2,000,000.00  | 5.07         |                  |  |  |  |

## **Asset Allocation**

As at the end of January 2023, the portfolio is mainly directed to fixed term deposits (~71%). The remainder of the portfolio is held in low yielding cash accounts with NAB (AA-) and Bendigo-Adelaide (BBB+), which remains at relatively high levels and will cause a drag to performance.

Senior FRNs are now becoming more attractive as spreads have widened over the past year – new issuances should now be considered again on a case by case scenario. In the interim, fixed deposits for 12 months to 3 years appear quite appealing following the spike in medium-to longer-term yields during the rate hike cycle.

With recessionary fears being priced in coming years, those investors that can allocate longer-term surplus funds may take an insurance policy by investing across 3-5 year fixed deposits, locking in and targeting yields above 4½% p.a.

Council's Investment Policy does not specify any limits for Maturity, Counterparty and Credit Quality compliance measures. We have provided Berrigan Shire Council an Investment Policy review in September 2022.

Monthly Investment Report: January 2023

# Term to Maturity

The portfolio is highly liquid with the majority of the investment portfolio maturing within 12 months. We recommend a more diversified maturity profile to improve the returns of the total investment portfolio.

Where ongoing liquidity requirements permit Council to invest a spread of attractive 1-3 year investments, we recommend this be allocated fixed term deposits (refer to respective sections below).

| Compliant | Horizon       | Invested (\$) | Invested (%) | Min. Limit<br>(%) | Max. Limit<br>(%) | Available (\$) |

### Counterparty

As at the end of January 2023 (noting no formal counterparty restrictions), Council's portfolio has minimal diversification, with only six banks utilised. We welcomed the introduction of Westpac (AA-) recently.

| Compliant | Issuer        | Rating | Invested (\$) | Invested (%) | Max. Limit (%) | Available (\$) |
|-----------|---------------|--------|---------------|--------------|----------------|----------------|
| <b>✓</b>  | NAB           | A-1+   | \$7,486,345   | 18.99%       | 100.00%        | \$31,933,844   |

| ✓         | BoQ (LT)      | BBB+   | \$2,000,000   | 5.07%        | 100.00%        | \$37,420,189   |
| ✓         | Defence Bank  | A-2    | \$2,000,000   | 5.07%        | 100.00%        | \$37,420,189   |
|           |               |        | \$39,420,189  | 100.00%      |                |                |

We remain supportive of the regional and unrated ADI sector (and have been even throughout the post-GFC period). They continue to remain solid, incorporate strong balance sheets, while exhibiting high levels of capital – typically, much higher compared to the higher rated ADIs. Some unrated ADIs have up to 25-40% more capital than the domestic major banks, and well above the Basel III requirements.

Overall, the lower rated ADIs (BBB and unrated) are generally now in a better financial position then they have been historically (see the Capital Ratio figure below). APRA's outgoing Chair Wayne Byres recently noted that the Common Equity Tier 1 capital of Australian banks now exceeds a quarter of a trillion dollars. It has increased by \$110 billion, or more than 70%, over the past eight years. Over the same time, banks' assets have grown by 44%. Some of the extra capital is supporting growth in the

Monthly Investment Report: January 2023

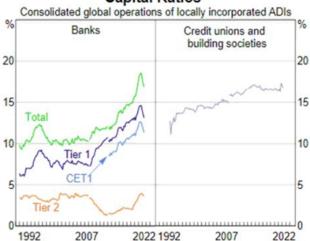

banking system itself but clearly, there has been a strengthening in overall resilience and leverage in the system is lower.

We believe that deposit investments with the lower rated ADIs should be considered going forward, particularly when they offer 'above market' specials. Not only would it diversify the investment portfolio and reduce credit risk, it would also improve the portfolio's overall returns. The lower rated entities are generally deemed to be the more 'ethical' ADIs compared to the higher rated ADIs.

In the current environment of high regulation and scrutiny, all domestic (and international) ADIs continue to carry high levels of capital. There is minimal (if any) probability of any ADI defaulting on their deposits going forward – this was stress tested during the GFC and the pandemic period. APRA's mandate is to "protect depositors" and provide "financial stability".

Per cent of risk-weighted assets; break in March 2008 due to the introduction of Basel II for most ADIs; break in March 2013 due to the introduction of Basel III for all ADIs.

Source: APRA

Monthly Investment Report: January 2023

# **Credit Quality**

The portfolio remains reasonably diversified from a credit ratings perspective, with room for some exposure to the local credit unions.

| Compliant | Credit Rating        | Invested (\$) | Invested (%) | Max. Limit (%) | Available (\$) |
|-----------|----------------------|---------------|--------------|----------------|----------------|
| ✓         | A-1+ Category        | \$9,486,345   | 24%          | 100%           | \$29,933,844   |
| ✓         | A-1 Category         | \$0           | 0%           | 100%           | \$39,420,189   |
| ✓         | A-2 Category         | \$25,933,844  | 66%          | 100%           | \$13,486,345   |
| ✓         | BBB Category (LT)    | \$4,000,000   | 10%          | 100%           | \$35,420,189   |
| ✓         | A-3 Category         | \$0           | 0%           | 100%           | \$39,420,189   |
| ✓         | Unrated ADI Category | \$0           | 0%           | 100%           | \$39,420,189   |
|           |                      | \$39,420,189  | 100.00%      |                |                |

Pre-pandemic (March 2020), a 'normal' marketplace meant the lower rated ADIs (i.e. BBB category) were offering higher rates on term deposits compared to the higher rated ADIs (i.e. A or AA rated). But due to the cheap funding available provided by the RBA via their Term Funding Facility (TFF) since mid-2020<sup>1</sup>, allowing the ADIs to borrow as low as 0.10% p.a. fixed for 3 years, those lower rated ADIs (BBB rated) did not require deposit funding from the wholesale deposit from the likes of Council. Given the higher rated banks had more capacity to lend (as they have a greater pool of mortgage borrowers), they subsequently were offering higher deposit rates. In fact, some of the lower rated banks were not even offering deposit rates at all. As a result, most investors placed a higher proportion of their deposit investments with the higher rated (A or AA) ADIs over the past three years.

In the interim, the 'abnormal' marketplace still largely exists, with the higher rated banks (majors) often paying a higher rate of return over the lower rated institutions across various parts of the curve on any particular day. Over the next few years, with the RBA now removing these cheap borrowing facilities, this should result in some of the lower rated banks (BBB rated) starting to become more competitive as the market starts to 'normalise'. Council should have a larger opportunity to invest a higher proportion of its surplus funds with the lower rated institutions (up to Policy limits), from which the majority are not lending to the Fossil Fuel industry or considered more 'ethical'.

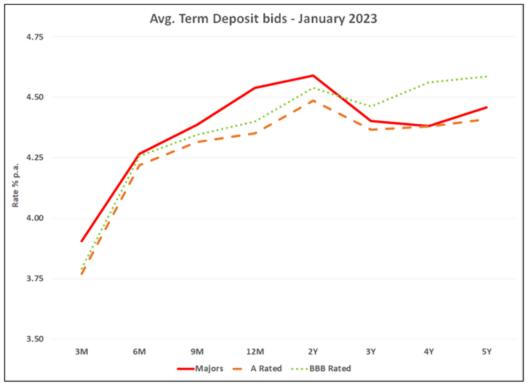

We are slowly seeing this trend emerge, as has been the case in recent months:

Monthly Investment Report: January 2023

<sup>&</sup>lt;sup>1</sup> The RBA's Term Funding Facility (TFF) allowed the ADI to borrow as low as 0.10% fixed for 3 years: <a href="https://www.rba.gov.au/mkt-operations/term-funding-facility/overview.html">https://www.rba.gov.au/mkt-operations/term-funding-facility/overview.html</a>

Monthly Investment Report: January 2023

# Performance

Council's performance for the month ending 31 January 2023 is summarised as follows:

| Performance (Actual)     | 1 month | 3 months | 6 months | FYTD   | 1 year |
|--------------------------|---------|----------|----------|--------|--------|
| Official Cash Rate       | 0.26%   | 0.75%    | 1.32%    | 1.44%  | 1.56%  |
| AusBond Bank Bill Index  | 0.27%   | 0.77%    | 1.31%    | 1.44%  | 1.52%  |
| Council's T/D Portfolio^ | 0.29%   | 0.82%    | 1.25%    | 1.33%  | 1.57%  |
| Outperformance           | 0.03%   | 0.06%    | -0.07%   | -0.11% | 0.05%  |

<sup>^</sup>Total portfolio performance excludes Council's cash account holdings. Overall returns would be lower if cash was included.

| Performance (Annualised) | 1 month | 3 months | 6 months | FYTD   | 1 year |
|--------------------------|---------|----------|----------|--------|--------|
| Official Cash Rate       | 3.10%   | 3.02%    | 2.64%    | 2.45%  | 1.56%  |
| AusBond Bank Bill Index  | 3.18%   | 3.08%    | 2.63%    | 2.46%  | 1.52%  |
| Council's T/D Portfolio^ | 3.52%   | 3.30%    | 2.49%    | 2.27%  | 1.57%  |
| Outperformance           | 0.35%   | 0.22%    | -0.13%   | -0.18% | 0.05%  |

<sup>^</sup>Total portfolio performance excludes Council's cash account holdings. Overall returns would be lower if cash was included.

For the month of January 2023, the deposit portfolio provided a return of +0.29% (actual) or +3.52% p.a. (annualised), outperforming the benchmark AusBond Bank Bill Index return of +0.27% (actual) or +3.18% p.a. (annualised).

Going forward, despite additional rate hikes over coming months, Council's interest income can be increased significantly by undertaking a slightly longer duration position (12-24 months), with rates on offer along this part of the curve likely to be up to ¼-½% higher than the rate compared to shorter tenors. The deposit market has largely already factored in the immediate rate hikes.

If Council is willing to undertake a slightly different strategy and stagger its deposit investments with the likes of the major banks (and Bendigo) across periods ranging from 12-24 months, over the upcoming year, it is likely to see an increase in overall returns by at least ½-1% p.a. On a \$30m deposit portfolio, that could amount to extra interest income of \$150,000-\$300,000 over the next 12 months should such a strategy be implemented.

Investors using the Imperium Markets platform have reduced the invisible costs associated with brokerage, and thereby lift client portfolio returns as investors are able to deal in deposits directly with the ADIs and execute at the best price possible.

Monthly Investment Report: January 2023

# Council's Term Deposit Portfolio & Recommendation

As at the end of January 2023, Council's deposit portfolio was yielding 3.50% p.a. (up 23bp from the previous month), with a weighted average duration of around 251 days (~8½ months). We strongly recommend Council extends this average duration closer to 9-12 months.

Over a longer-term cycle, investors are rewarded if they can continue to maintain a slightly longer average duration. In a 'normal' marketplace, yields at the long-end are generally offered at a slight premium over shorter tenors.

At the time of writing, we see value in:

|           | LT Credit Rating | Term    | T/D Rate   |
|-----------|------------------|---------|------------|
| ING       | А                | 3 years | 4.62% p.a. |
| ING       | Α                | 2 years | 4.61% p.a. |
| CBA       | AA-              | 2 years | 4.64% p.a. |
| BoQ       | BBB+             | 2 years | 4.55% p.a. |
| Westpac   | AA-              | 2 years | 4.50% p.a. |
| NAB       | AA-              | 2 years | 4.50% p.a. |
| Hume Bank | BBB+             | 2 years | 4.50% p.a. |
| Suncorp   | A+               | 2 years | 4.45% p.a. |

The above deposits are suitable for investors looking to maintain diversification and lock-in a premium compared to purely investing short-term. For terms under 12 months, we believe the strongest value is currently being offered by the following ADIs (dependent on daily funding requirements):

Monthly Investment Report: January 2023

| ADI       | LT Credit Rating | Term      | T/D Rate   |
|-----------|------------------|-----------|------------|
| СВА       | AA-              | 12 months | 4.69% p.a. |
| NAB       | AA-              | 12 months | 4.60% p.a. |
| Westpac   | AA-              | 12 months | 4.59% p.a. |
| ING       | Α                | 12 months | 4.55% p.a. |
| Suncorp   | A+               | 12 months | 4.50% p.a. |
| BoQ       | BBB+             | 12 months | 4.50% p.a. |
| Hume Bank | BBB+             | 12 months | 4.50% p.a. |
| CBA       | A+               | 6 months  | 4.41% p.a. |
| BoQ       | BBB+             | 6 months  | 4.40% p.a. |
| CBA       | BBB              | 3 months  | 4.13% p.a. |

If Council does not require high levels of liquidity and can stagger its investments longer-term, it will be rewarded over coming years if it can roll for an average min. term of 12 months - 2 years (this is where we see current value), yielding, on average, up to ¼% p.a. higher compared to those investors that entirely invest in short-dated deposits (under 6-9 months).

With recessionary fears being priced in coming years, assuming inflation is under control, Council may consider taking an insurance policy by investing across 3-5 year fixed deposits and locking in rates above 4½ p.a., ahead of any potential future rate cuts.

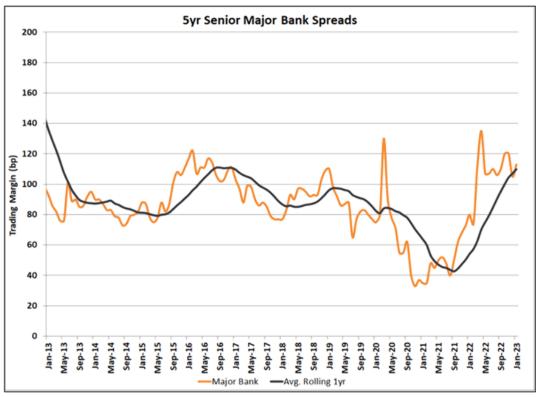

Monthly Investment Report: January 2023

# Senior FRNs Review

Over January, amongst the senior major bank FRNs, physical credit securities widened up to 10bp at the long-end of the curve. This was mainly driven by CBA's (AA-) dual 3 and 5 year primary issuance at +90bp and +115bp respectively. Major bank senior securities are now looking fairly attractive again in a rising rate environment (5 year margins above the +110bp level):

Source: IBS Capital

During January, there were other noticeable new primary issuances from:

- ICBC, Sydney Branch (A) 3 year senior 'green' FRN at 103bp
- Rabobank, Australian Branch (A+) 5 year senior FRN at +118bp
- Bendigo-Adelaide (BBB+) 4 year senior FRN at +135bp
- BoQ (BBB+) 4 year senior FRN at +135bp
- Great Southern Bank (BBB) 4 year senior FRN at +165bp

Amongst the "A" rated sector, the securities were marked up to 5bp wider at the 5 year part of the curve, whilst the "BBB" rated sector was marked up to 15bp tighter (on the 3 year part of the curve) due to recent new issuances.

Monthly Investment Report: January 2023

Credit securities are looking much more attractive given the widening of spreads in 2022. FRNs will continue to play a role in investor's portfolios mainly on the basis of their liquidity and the ability to roll down the curve and gross up returns over ensuing years (in a relatively stable credit environment).

| Senior FRNs (ADIs) | 31/01/2023 | 31/12/2022 |
|--------------------|------------|------------|
| "AA" rated – 5yrs  | +113bp     | +105bp     |
| "AA" rated – 3yrs  | +88bp      | +82bp      |
| "A" rated – 5yrs   | +130bp     | +125bp     |
| "A" rated – 3yrs   | +103bp     | +105bp     |
| "BBB" rated – 3yrs | +150bp     | +165bp     |

Source: IBS Capital

We now generally recommend switches ('benchmark' issues only) into new primary issues, out of the following senior FRNs that are maturing:

- On or before early 2025 for the "AA" rated ADIs (domestic major banks);
- On or before early 2024 for the "A" rated ADIs; and
- Within 6-9 months for the "BBB" rated ADIs (consider case by case).

Investors holding onto the above senior FRNs ('benchmark' issues only) in their last few years are now generally holding sub-optimal investments and are not maximising returns by foregoing realised capital gains. In the current challenging economic environment, any boost in overall returns should be locked in when it is advantageous to do so, particularly as switch opportunities become available.

Primary (new) FRNs are now looking more appealing and should be considered on a case by case scenario.

Monthly Investment Report: January 2023

# Senior Fixed Bonds - ADIs (Secondary Market)

As global inflationary pressures have escalated, this has seen a significant lift in longer-term bond yields (valuations fell) as markets have reacted accordingly.

This has resulted in some opportunities in the secondary market. We currently see value in the following fixed bond lines, with the majority now being marked at a significant discount to par (please note supply in the secondary market may be limited on any day):

| ISIN         | Issuer    | Rating | Capital<br>Structure | Maturity<br>Date | ~Remain.<br>Term<br>(yrs) | Fixed<br>Coupon | Indicative<br>Yield |
|--------------|-----------|--------|----------------------|------------------|---------------------------|-----------------|---------------------|
| AU3CB0255776 | ING       | AAA    | Covered              | 07/09/2023       | 0.60                      | 3.00%           | 4.21%               |
| AU3CB0258465 | Westpac   | AA-    | Senior               | 16/11/2023       | 0.79                      | 3.25%           | 4.17%               |
| AU3CB0265403 | Suncorp   | AA-    | Senior               | 30/07/2024       | 1.50                      | 1.85%           | 4.53%               |
| AU3CB0265593 | Macquarie | A+     | Senior               | 07/08/2024       | 1.55                      | 1.75%           | 4.53%               |
| AU3CB0265718 | ING       | AAA    | Covered              | 20/08/2024       | 1.55                      | 1.45%           | 4.39%               |

Monthly Investment Report: January 2023

# **Economic Commentary**

Risk markets were aided in January as recent data indicated there were signs the global economy may be weathering inflation better than previously anticipated. Several global central banks also hinted they may pause their aggressive rate hike cycles in the near future.

Across equity markets, the S&P 500 Index rose +6.18%, while the NASDAQ surged +10.68%. Europe's main indices also gained, led by France's CAC (+9.40%), Germany's DAX (+8.65%) and UK's FTSE (+4.29%).

The US core CPI index, which excludes volatile food and energy items, rose +0.3% m/m, in line with the consensus. Encouragingly for the Fed, the core PCE printed +4.4% y/y, the lowest since October 2021, generating a 3-month annualised rate to +2.9% from +3.5%, the lowest read since January 2021.

US Q4 GDP beat expectations at +2.9% quarter annualised versus +2.6% expected. US headline retail was -1.1% m/m versus -0.9% expected. The important core control measure was also weak at -0.7% m/m against -0.3% expected.

The Bank of Canada (BoC) explicitly signalled a pause to the hiking cycle after hiking by 25bp during the month. Their explicit pause signal has many thinking whether other central banks will do likewise noting they were one of the first to start the initial hiking cycle. Canadian CPI data supported the theme of slower global inflationary pressure, with the headline and core measures falling to +6.3% and +5.6% respectively.

The Bank of Japan (BoJ) bought ¥5 trillion of JGBs to defend the target, its largest ever daily amount of bond buying, which followed ¥4.6 trillion of purchases earlier.

Eurozone Q4 GDP surprised at +0.1% q/q against -0.1 expected, raising hopes that a recession may be avoided. However, Italian GDP was weaker at -0.1% q/q, along with German GDP at -0.2% q/q with the possibility of downward revisions given German retail sales for December printed at -5.3% m/m against -0.2% expected.

Chinese trade data saw exports at -9.9% y/y (consensus -11.1%) and imports down -7.5% y/y (consensus -10.0%), though the impact of Covid in December clouds the numbers. China's population dropped in 2022 for the first time since 1961, by 850,000 to 1.412 billion. There are fears that as China's population declines, this will constrain potential growth. Meanwhile, China's re-opening continues to drive optimism, resulting in most commodity prices to trade higher.

The MSCI World ex-Aus Index rose +6.92% for the month of January:

| Index                    | 1m     | 3m     | 1yr     | 3yr    | 5yr    | 10yr    |
|--------------------------|--------|--------|---------|--------|--------|---------|
| S&P 500 Index            | +6.18% | +5.28% | -9.72%  | +8.12% | +7.62% | +10.53% |
| MSCI World ex-AUS        | +6.92% | +9.06% | -9.32%  | +5.98% | +4.78% | +7.29%  |
| S&P ASX 200 Accum. Index | +6.23% | +9.59% | +12.21% | +5.96% | +8.51% | +8.75%  |

Monthly Investment Report: January 2023

## **Domestic Market**

The unemployment rate in December was unchanged at 3.5% from an upwardly revised November figure. The participation rate fell 0.2% to 66.6% from 66.8%, back to its October level after the bounce in November, and has also been broadly steady at 66.6% in H2 2022.

With unemployment hovering around a 48-year low, businesses are finding it incredibly difficult to find workers. About 90% of bosses expect staffing shortages will affect their business this year, according to the Australian Industry Group's annual survey of CEO expectations.

Q4 CPI rose more than expected at +1.9% (consensus +1.5%), taking the annual rate to +7.8%, the highest peak since 1990, driven by increases in domestic holidays, international travel and higher electricity prices. The trimmed mean rose +1.7% over the quarter, with the annual rate coming in at +6.9%.

Sydney house prices have had their steepest annual fall on record, declining 10.9% last year as rising interest rates took a toll on buyer demand and spending power. House prices are now 11.3% below their early 2022 peak, but is still 24.2% higher than they were when the market troughed in mid-2020.

Dwelling approvals fell -9.0% m/m in November (consensus 0%). That's the third consecutive month of decline and follows October's 5.6% fall.

Retail sales fell a sharp -3.9% m/m in December (consensus -0.2%), following an upwardly revised November to +1.7% m/m (from 1.4%). The key implication is that we may be starting to see the first signs that monetary tightening is starting to weigh on consumption.

The November trade balance was up 0.5bn to \$13.2bn from an upwardly revised October figure.

The Australian dollar gained +3.87%, finishing the month at US70.37 cents (from US67.75 cents the previous month).

# **Credit Market**

The global credit indices tightened significantly over January in the 'risk-on' environment. They are now back to their levels in early 2022 (prior to the rate hike cycle from most central banks):

| Index                      | January 2023 | December 2022 |
|----------------------------|--------------|---------------|
| CDX North American 5yr CDS | 72bp         | 86bp          |
| iTraxx Europe 5yr CDS      | 79bp         | 98bp          |
| iTraxx Australia 5yr CDS   | 82bp         | 91bp          |

Monthly Investment Report: January 2023

# 90 Day Bill Futures

Over January, bill futures fell across the board, with the market reacting to central bank rhetoric, hinting that a pause in the rate hike cycle was fast approaching. The markets continue to factor in the possibility of a global recession over the next few years, highlighted by the drop in the futures pricing in early 2024:

Source: ASX

Monthly Investment Report: January 2023

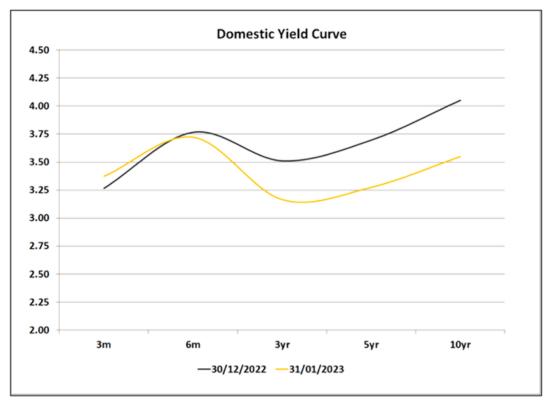

# **Fixed Interest Outlook**

Following the recent soft inflation figures in the US, Fed Funds pricing is now expecting a 25bp hike on 1st February, with around a 40% chance they may also leave rates unchanged.

Domestically, the headline inflation outlook has somewhat receded with growing confidence that construction inflation is in retreat and signs of goods disinflation globally. The labour market remains tight, but timely indicators of labour demand are off their peaks as labour supply has normalised and frictions associated with rapid employment growth out of pandemic impacts moderate. Although labour costs pressures are evident in the latest CPI figures for Q4 2022, there are reasons to be optimistic that some stabilisation in wages growth can occur without a sharply higher unemployment rate, including the normalisation in labour supply.

For now, the RBA continues to signal that it expects to increase interest rates further over the period ahead, with up to 2-3 hikes already largely priced into the market by Q2-Q3 2023, taking the cash rate up to 33%. Thereafter, noting the lags in monetary policy, a pause around the end of Q2-Q3 is likely whilst the RBA monitors the economic data.

Over the month, yields fell up to 50bp at the long-end of the curve:

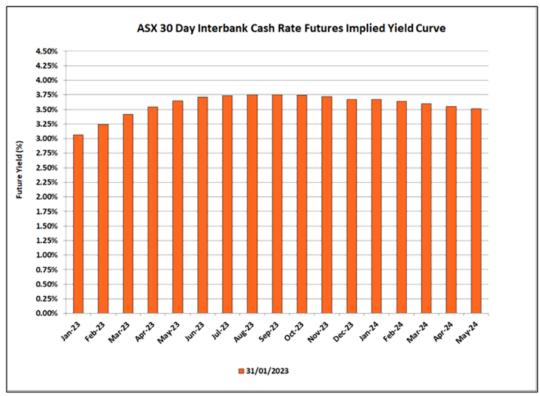

Source: AFMA, ASX, RBA

Monthly Investment Report: January 2023

Markets are currently pricing in around 2-3 additional rate rises into mid-2023 (up to 3.75%). Fears of a looming global recession have actually seen rate cuts start to be priced in towards the start of 2024, although this seems unlikely for now.

## Action: Council Resolution 28/2022

Crs McNaught and Hatty that the Council:

- 2. Direct the CEO and Director Infrastructure to engage with Murrumbidgee Local Health District to integrate road works with the proposed redevelopment of Finley Hospital;
- 3. Carry forward the \$350,000 budget allocation towards the road works at Dawe Ave, with work to recommence once the scope of the Finley Hospital redevelopment is known.

## 23 Dec 2022 9:14am Ewer, Karina

The Finley Hospital has received \$25M in funding to upgrade the facilities. Dawe Avenue expenditure will be held over until the work on the new hospital facility is close to completion so that Council spends this money once and ensures it is the work needed for the site into the future. Council are working with MLHD to keep across where their project is up to.

## 06 Feb 2023 9:54am Ewer, Karina

Am attending the Steering Committee meetings for the refurbishment.

Ewer, Karina

Action: Council Resolution 56/2022

Crs Hatty and Taylor that the Council direct the CEO to undertake a formal review regarding the future use and management of the Tocumwal Town Beach area.

#### 23 Dec 2022 9:05am Ewer, Karina

This matter is linked to a number of factors which will require consideration. The Audit Report from Centium will be used to address the governance concerns. , I am working with Crown Lands to change the boundary of the area as camping currently occurs on the Riverine Zone and not on the Crown Land parcel used to assess the numbers of campers. This error could have seen Council face considerable financial costs in fines however Crown Land have agreed to work with us to legitimise the camping practices as much as is possible. Work on this matter has been held up due to the flooding., A survey was taken of the Tocumwal Community that clearly noted residents would like to see a hybrid model applied to the Town Beach area so that some camping is allowed going forward, but also that there is a designated area for day trips to allow locals to access the beach more freely even in high tourist seasons., The grey water project has also been held up due to flooding. This must be complete prior to the resumption of camping as it is noted in the Centium report and other eariler reports to be a high risk of environmental damage for the site., A concept plan of the site, once the boundaries are finalised, will be undertaken and put out for public comment. This might be the best time for a town meeting if that is to occur., It is envisaged Council will need to implement a booking system (along with the Foreshore Committee if they wish to reengage) for the sites. These sites will need to be clearly demarkated and length of stay carefully monitored. The resourcing required to do this work may be substaintial and will require a decision of Council I believe at this stage. It has been very difficult to attract a care-taker.

## Action: Council resolution 217/2022

Cr Taylor and Cr McNaught that the Council:

- 1. delegate the CEO and Director Infrastructure to work with Essential Energy and look for co-funding opportunities
- 2. delegate Director Infrastructure to explore costs for getting the powerlines underground

### 09 Jan 2023 5:16pm Hansen, Matthew

Advice being sought from NSW Water Directorate on a charging model

#### 06 Feb 2023 9:52am Hansen, Matthew

Waiting on advice from Water Directorate. DCEO to follow up befoire meeting 23 Dec 2022 9:14am Ewer, Karina

The Finley Hospital has received \$25M in funding to upgrade the facilities. Dawe Avenue expenditure will be held over until the work on the new hospital facility is close to completion so that Council spends this money once and ensures it is the work needed for the site into the future. Council are working with MLHD to keep across where their project is up to.

#### 06 Feb 2023 9:54am Ewer, Karina

Am attending the Steering Committee meetings for the refurbishment.23 Dec 2022 9:05am Ewer, Karina

This matter is linked to a number of factors which will require consideration. The Audit Report from Centium will be used to address the governance concerns. , I am working with Crown Lands to change the boundary of the area as camping currently occurs on the Riverine Zone and not on the Crown Land parcel used to assess the numbers of campers. This error could have seen Council face considerable financial costs in fines however Crown Land have agreed to work with us to legitimise the camping practices as much as is possible. Work on this matter has been held up due to the flooding., A survey was taken of the Tocumwal Community that clearly noted residents would like to see a hybrid model applied to the Town Beach area so that some camping is allowed going forward, but also that there is a designated area for day trips to allow locals to access the beach more freely even in high tourist seasons., The grey water project has also been held up due to flooding. This must be complete prior to the resumption of camping as it is noted in the Centium report and other eariler reports to be a high risk of environmental damage for the site., A concept plan of the site, once the boundaries are finalised, will be undertaken and put out for public comment. This might be the best time for a town meeting if that is to occur., It is envisaged Council will need to implement a booking system (along with the Foreshore Committee if they wish to reengage) for the sites. These sites will need to be clearly demarkated and length of stay carefully monitored. The resourcing required to do this work may be substaintial and will require a decision of Council I believe at this stage. It has been very difficult to attract a care-taker.09 Jan 2023 5:18pm Hansen, Matthew

## Action: Council resolution 233/2022

Cr Cornwell McKean and Cr Taylor that the Council note the following:

- that conditional approval to operate for a 3-month period will be granted; and
- that conditions will include:
  - o All Underground Petroleum Storage System (UPSS) risks must be addressed or plan for remediation agreed by the relevant agencies.
  - o A plan is developed, in consultation with Council officers, to undertake recommended remediation of on-site waste-water treatment system.
  - o Council Officers and/or Council contractors be granted access to conduct a site-by-site compliance and safety assessment per relevant building and fire safety regulations
